

6. Palindrome Number

Determine whether an integer is a palindrome.

Example: Input: x = 121 Output: true

Code

```
class Solution {  
    public boolean isPalindrome(int x) {  
        StringBuffer s=new StringBuffer(""+x);  
        s.reverse();  
        return (""+x).equals(""+s);  
    }  
}
```
